Rotameter (flow regulator) AKE AV23-02

Price: **80.00 PLN** gross

80.00 PLN for szt.

Manufacturer: **- Pro Eco Solutions Ltd.**

Referention number: **Flow meter AV23-02**

Condition:: **New**

Quantity: 187 pcs.

Information:

Rotameter (flow regulator) AKE AV23-02

Product features

Thread:	G 3/4"

Full product description

Rotameter (flow regulator) AKE AV23-02

A simple flow regulator and flowmeter for solar, heating and hydraulic systems.

Description:

- Direct reading and flow balancing valve with visual (step) indicator
- Correct balancing of the circuit ensuring optimal system efficiency, which can contribute to energy savings
- Allows for fast and accurate regulation of flow rates in heating and air conditioning circuits

Advantages:

- precise and fast balancing without diagrams, tables and measuring instruments
- flow displayed directly in l/min
- control valve with adjustment scale
- control valve with shut-off function (possible residual leakage)
- can be mounted in any position

Technical data:
- connections: 2 x internal thread 3/4"
- flow regulation: 0-8 liters
- maximum operating temperature 110 degrees C

- maximum operating pressure 1 MPa
- can be mounted in a vertical, horizontal or inclined position (make sure that the arrow points in the flow direction)
- dimensions: 81.5/27mm
- weight 160g
