

Flow meter AKE AV23- 15T

Price: **130.00 PLN** gross

130.00 PLN for szt.

Referention number: **Flow meter AV23-15T**

Condition:: **New**

Quantity: 123 pcs.

Information:

Flow meter AKE AV23-15T

Product features

Thread: G 1/2"

Full product description

Rotameter - flow regulator AKE AV23-15T

Flow regulator and flowmeter for solar, heating and hydraulic systems.

■ Description:

- direct reading valve with flow balancing with visual indicator (step)
- correct circuit balancing ensuring optimal system efficiency, which can contribute to energy reduction
- enables fast and accurate regulation of flow rates in heating and air conditioning circuits

■ Advantages:

- precise and fast balancing without diagrams, tables and measuring instruments
- flow displayed directly in l/min
- control valve with adjustment scale - control valve with shut-off function (possible residual leakage)
- can be mounted in any position

■ Technical data:

- flow regulation from 0 to 8 liters/min.
- scale from 2 to 8 liters/min.
- maximum operating temperature: 100 degrees C.

- maximum pressure - 10 bar - connections: 2 x external thread 1/2 inch
- can be mounted in a vertical, horizontal or inclined position (make sure that the arrow indicates the flow direction)
- dimensions 132/39/73mm
- weight 500 g
