Price: **5,80 PLN** gross

5,80 PLN for szt.

Manufacturer: - **Pro Eco Solutions Ltd.**

Referention number: **COPPER SLEEVE SOLARI**

Condition:: **New**

Quantity: 721 pcs.

Information:

Nickel-plated sleeve (for Heat Pipe)

Full product description

Application:

The nickel-plated sleeve (for the Heat Pipe tube) is mounted, for example, in pressure solar water heaters PROECO SOLARIS-P, and is intended to create a durable and tight seat for the heat-pipe tube.

Technical data:

- Type: Nickel-plated sleeve
- Material: Nickel-plated metal
- Compatibility: Heat-pipe tubes, PROECO SOLARIS-P tanks

Advantages:

Ensures a secure and tight mounting of the heat-pipe tube in the tank.

The nickel-plated coating guarantees high corrosion resistance and an aesthetic appearance.

Easy installation, which streamlines installation work.

Perfectly matched to PROECO SOLARIS-P water heaters, which ensures full compatibility.
