

## SR21\_H pump set with controller

Price: **2,111.40 PLN** gross

Reduction: **-10%**

Old price: **2,346.00 PLN**

**2,111.40 PLN** for kpl.

Manufacturer: - **Pro Eco Solutions Ltd.**

Referention number: **SOLAR STATION SR21H6 "wyswietlacz"**

Condition: **New**

Quantity: 1 pcs.

### Information:

S21\_H pump set with controller

The set includes:

2x PT1000 1.5m sensor

4x NTC10K 3m sensor

### Product features

Equipment:	temperature sensor
Power supply:	230V AC

### Full product description

Pump station with SR21\_H controller for split solar domestic hot water systems.

**NOTE:** This specific set is discounted due to a visual defect of the display!

This does not affect the operation of the controller or the display! The set is fully functional.

The warranty is also full!

#### Technical Data

**Power supply:** 200V ~ 240V AC, 50-60Hz

**Casing:** ABS plastic

**Protection class:** IP41

**Ambient temperature:** 0 ... 40 °C

#### ■ **Inputs and outputs**

##### **Inputs:**

2\* inputs for a PT1000 temperature sensor

4\* inputs for NTC10K temperature sensors

1\* input for a digital flow meter FRT

##### **Outputs:**

1\* relay output for the pump

1\* PWM output

#### ■ **Functions**

The set is designed for systems with two pumps

Controller integrated with the pump station

Cooling and anti-legionella function (DVWG)

Manual mode, holiday function

Tank priority logic

#### ■ **Interface and operation**

**Display:** Large LED display

**Operation:** 5 buttons on the front panel
